Race Overview

The Miles for Smiles 5K is not only for competitive runners but also for families wanting to share a great outdoor experience. Since its inception in 2007, Miles for Smiles has continued to attract more competitors every year. This year the race will be held at the North Area Athletic Complex in Arvada.

Following the 5K, there is a 50-yard Adaptive Dash where children will show off their speed using their adaptive equipment to walk, roll or ride to the finish line. This special event is a huge hit with spectators and participants alike.

About Two Angels Foundation

Two Angels Foundation, Inc., was organized in memory of Allyson and Rachel Mohatt . Both girls were diagnosed with a rare form of muscular dystrophy called Nemaline Myopathy, which ultimately took their lives when they were just five years old. Making the girls' lives as normal possible was their family's primary goal and because of the degenerative nature of the disease, that meant providing them with adaptive equipment so they could attend school and play with others.

Obtaining adaptive equipment can be a significant financial burden that, in many cases, is not covered by insurance. Two Angels Foundation helps families in need purchase adaptive equipment for home and school thus facilitating a more normal life for special needs children.
